Please RSVP at: <https://netherlands-american-business-council-launch.eventbrite.com>

Background

The Netherlands-American Business Council (NABC) is a new platform that unites and represents the Netherlands-American Chambers of Commerce and Business associations throughout the United States. The NABC is a new network representing these existing organizations and operates in close collaboration with the Royal Netherlands Embassy and the Netherland-America Foundation (NAF). We will celebrate the launch of the NABC on October 9, exactly 400 years after the first trade free trade agreement between the Netherlands and what is now the United States was signed and trade and economic ties between the two nations began.
